A WORD TO THE WISE.

Of all the important principles applied to business ventures, the one that stands for success, first, last and all the time is *Safety*.

Next to safety of course comes *Profit*. Where these elements exist, failures never come.

It is a foregone conclusion that these principles apply as forcibly to investing money or keeping it on deposit, as to any other transaction.

Special attention of conservative investors and the saving classes is therefore called to the *Full-Paid Certificates* of the GUARANTY SAVINGS AND LOAN ASSOCIATION," as *Safety, Profit and Convenience* are combined in this investment to a degree not found in any other class of monetary institutions in existence.

SAFETY.

Greater safety is assured our investors and depositors—Because, the funds entrusted to the Association are loaned upon first mortgage improved real estate security, exclusively, as required by the law of our State. Because, borrowers begin immediately to repay their loans by making monthly payments, thereby reducing their debt and increasing the Association's security. Because, the Association has a large Guaranty Fund deposited with the State. Because, its mortgages are made non-assignable and cannot be sold or disposed of under any circumstances. Because, all officers are under heavy bonds deposited with the State, guar-

anteing the faithful performance of their duties.

PROFIT.

Full-paid certificates draw seven per cent annual interest, which is paid semi-annually on the first days of January and July. Interest coupons are attached to each certificate and can be collected through any bank. While this rate of interest is from two to three per cent more than is usually paid by other financial institutions, it is entirely consistent and safe, because under our system of loaning, the Association receives six per cent interest and seven per cent premium on every dollar of its money, which is paid monthly, with a portion of the principal and therefore is compounded twelve times each year and nets a profit of 14% to 15% per annum to the Association.

CONVENIENCE.

Full-paid certificates provide a particularly convenient method for investment as all or a portion of the amount invested may be withdrawn at any time. The interest is easily collected, no delays are experienced; and while the investor has real estate first mortgage security he is relieved from delays in collection of interest, payment of principal, payment of taxes, keeping up insurance, etc., etc., all of which is given careful and prompt attention by the officers of the Association.

These are essential matters and are advantages at once appreciated by those who have had experience.

Introductory.

IN presenting to Home-seekers and Investors my Tenth Annual Catalogue of Lots, Houses, Cottages and Stores for sale in my many Chicago Subdivisions and Suburban Towns, I deem it proper to inform you that I have, within the past ten years, sold more than 30,000 lots, built and sold more than 7,000 houses, and located and built 16 towns and cities.

The principal reasons that have enabled me in that period of time to build up what is admitted to be the Largest Real Estate Business in the world, are as follows:—

Many years experience enables me to select property that under my system meets with rapid sale. I select property on or near large and important thoroughfares, leading to the center of the city, and in localities that are being, or can be, rapidly developed and improved. Transportation facilities to and from the business and working centers of the city are made special features in selecting sites for my towns and subdivisions. You will find all my property convenient to, or on lines of either street or steam cars, or both, and the greater number are also located on the route of the Electric or Elevated roads now being built or projected. Before placing properties on the market, extensive improvements are made, that add to the permanent beauty and value of the property. For this reason my properties always present an attractive and pleasing appearance.

A distinguishing feature of my City Subdivisions and Suburban Towns is the rapidity with which they are built up. As soon as a Subdivision is placed upon the market I erect a large number of attractive houses of modern designs. These houses are sold on very easy terms. The material is purchased in large quantities for cash, the labor is done by the day, under the immediate and constant supervision of my superintendents and inspectors, thus enabling me to build and sell a better house for less money than others.

To purchasers of lots, loans are made with which to build, on such easy and liberal terms that the money they have been paying for rent will repay the loan within a few years. My interest does not cease when I have sold all the lots, but continues until every man who desires it, has been furnished money with which to build for himself and family "A HOME." I help the people, the people help me. I succeed, the people succeed, and cities and towns with Schools, Churches,

Stores, Fine Residences and metropolitan improvements are the results. SUCCESS has attended every enterprise undertaken by me. Unceasing energy, judicious advertising and the adoption of thorough and careful business methods have accomplished my desired purposes. It has become a recognized fact that no risks are taken by purchasers as to the future development and increase in value of property in my subdivisions or suburban towns. There is not a single instance where property sold by me has not had a steady and legitimate increase.

I subdivide and sell only my own property, therefore I am able to fulfill all promises I make and I can give my customers satisfactory terms.

For the good and fair treatment accorded the people, I refer you to the many thousands who have purchased property of me, and who are to-day living in homes of their own for which they are paying or have already paid for with ease and comfort. So liberal has been, and is my treatment, that I have never been compelled to foreclose a mortgage or sue a purchaser, and I constantly receive the hearty thanks of customers, when they call at the main office to make their payments. Their pleasant and continued greetings make my business a pleasure and confirms me in my desire to continue to furnish homes for the people on easy terms. Having by these means won the confidence, good will and patronage of the public, and owing to superior business methods and advantages, I am able to sell out a city subdivision or suburban town within a few months, that would require others years to accomplish. Therefore, I can, and do, sell my lots cheaper owing to the proportionally smaller expenses. Quick sales are the guaranty of rapid development and great increase in value of property sold. You consult your own interests when you buy of me. Knowing well the true worth of all these things, knowing well the desirability of my properties, either for homes or investment, knowing also that I have the largest amount and best located property in the market at prices and terms that can be met by any one desiring a home or investment, I cordially invite your inspection of my properties. They embrace 150 select subdivisions, additions and suburban towns, only the principal ones being described in this catalogue, located in all divisions of the city and in all directions around it, containing 24,000 lots, ranging in price from \$100 to \$2,500; 500 houses, ranging in price from \$1,000 to \$5,000; 25 store buildings, ranging in price from \$5,000 to \$20,000, aggregating over \$10,000,000.

Examine carefully the city subdivisions and suburban towns in this catalogue and call at Main Office, or at Branch Offices on the properties, where I have salesmen at all hours of the day who will cheerfully take you free to see the property, and furnish you with any additional information desired.

The enlargement of the city's boundaries has placed nearly all my subdivisions, additions and suburban towns, inside the city limits and affords them many additional advantages and accommodations, such as City Police and Fire Protection, city water, gas, paved streets, sewers, etc., etc.

Branch Offices are located upon all subdivisions, open daily. Main Office open Wednesday and Saturday evenings to accommodate those who cannot conveniently call during the day. Free daily excursions from my Main Office to visit the property.

"MAGNETIC" GROSSDALE

LOTS \$200 AND UPWARDS.

THE WONDERFUL SUCCESS ACHIEVED BY THIS BEAUTIFUL SUBURBAN CITY IS WORTHY A PAGE IN THE HISTORY OF THE NATION. OVER 2,800 LOTS SOLD BETWEEN JUNE 15TH, 1889 AND JULY 1ST, 1890. THE LARGEST NUMBER OF LOTS EVER SOLD AT PRIVATE SALE IN ANY SUBDIVISION IN THE WORLD IN A CORRESPONDING LENGTH OF TIME.

LOCATION AND DESCRIPTION.

GROSSDALE, the finest suburban city on the C., B. & Q. Railroad, is but a few miles west of the City Limits, between 31st and 39th Streets, and but twenty-five minutes ride from the Union Depot. Thirty-six trains daily afford satisfactory and rapid transit morning and evening to and from the city. It is also on the line of the proposed Elevated Railroad to La Grange. A picture of the elegant new brick depot, which has been completed on the property at a cost of \$5,000 is shown on page 6. On page 7 is given a picture of the handsome hall and theatre building, fitted with stores and offices completed, and at a cost of \$10,000. Grossdale can be reached by both the Ogden Avenue and Riverside Boulevards, beautiful macadamized driveways, a delightful drive from the city through Douglas Park. It is also on the border of and adjoining the new drainage district, and will obtain its inestimable benefit without the burden of assessment or increased taxation. A romantic wooded river runs through the eastern portion of the property, adding much to the picturesqueness of this very beautiful suburb, and at the same time furnishing the very best of drainage, as all the property is at least 15 feet above the level of the water in the creek, and fully 30 feet above Lake Michigan. Land, high, dry, healthful and surrounded by a handsome park, groves, river and forest, making a landscape beautiful, picturesque and restful to the observer's eye. Twenty-four miles of sidewalk have been laid, shade trees planted in front of all lots, streets graded, Grand Boulevard macadamized and lighted by Street Lamps for its entire length, also a large three-foot main sewer in on the Boulevard, assuring purchasers good drainage. Handsome park lots, unequalled for pleasant homes, are convenient to depot, as, in fact, are all the lots. They are all large and the houses are of new and beautiful designs. Building lines and limits have been established, securing uniform lawns and fine improvements. No business buildings allowed on exclusively residence streets.

The success of Grossdale has indeed been phenomenal. 800 lots were sold the first 30 days the property was in the market. Many fine houses now built, more building every day.

TERMS ON LOTS.

Price \$200 and upwards. Small cash payment, balance in small month's payments with long time. Interest 6 per cent. No cash payment required if you build at once. Money loaned for building. Title perfect. Complete abstract furnished free with each lot.

THE "IDEAL" RESIDENCE SUBDIVISION

—OF THE—

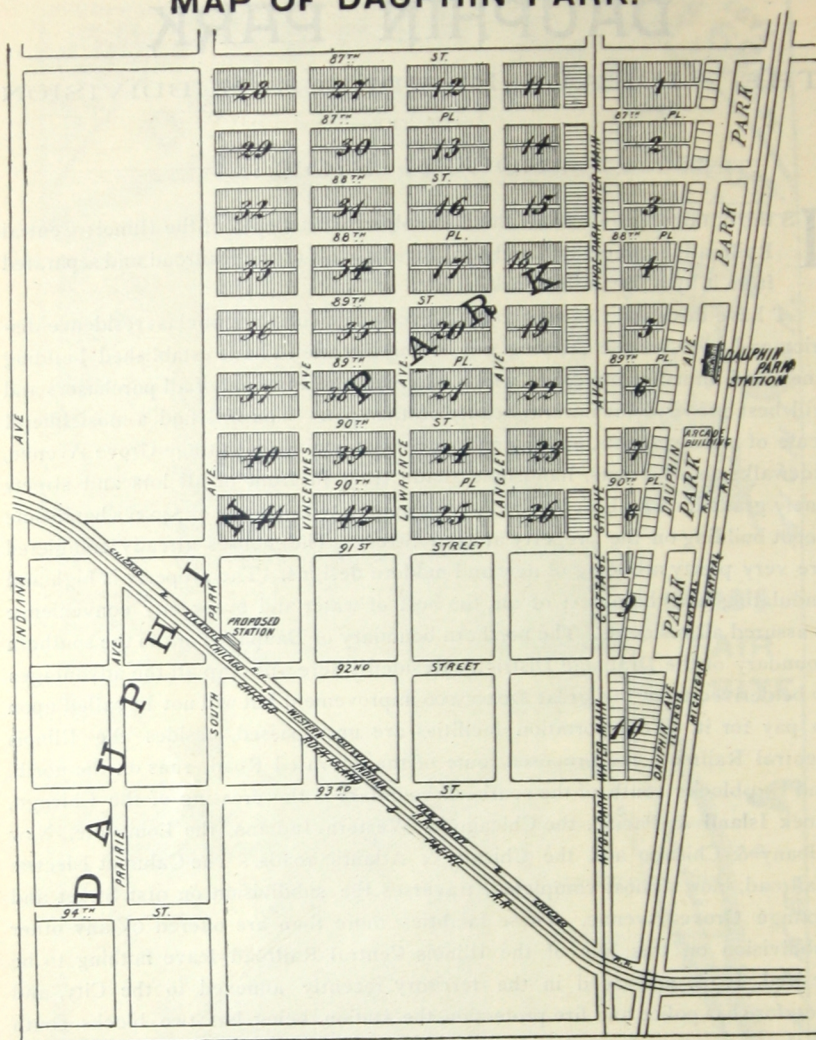

.....: SOUTH SIDE :

IS thirty minutes ride from the Randolph Street depot of the Illinois Central Railroad, between 87th and 93rd Streets, west of the Railroad and separated from it by a Beautiful Park.

I have designed this spot to be in every particular a first-class residence district, and to insure the carrying out of this intention I have established building lines and limits for buildings, which will meet the approval of all purchasers and will best preserve the natural beauty of the spot. You will find a most liberal scale of improvements, embracing large water mains on Cottage Grove Avenue, sidewalks on all streets, handsome shade trees in front of all lots and streets finely graded. The I. C. R. R. Co. have completed, at a cost of \$4000 a handsome depot building on the property at 90th Street. The houses already completed are very pretty all being of new and modern designs. The property is high and undulating and the purest of air, the best of water and every city convenience is assured all residents. The northern boundary of Dauphin Park is the southern boundary of the Drainage District. Residents here will reap all the advantages to be derived from this great \$20,000,000 improvement but will not be called upon to pay for it. Transportation facilities are unsurpassed, besides the Illinois Central Railroad, the proposed route of the Elevated Road, runs on the north, and two blocks south of the southern boundary is the crossing of the Chicago, Rock Island & Pacific, the Chicago & Western Indiana, the Louisville, New Albany & Chicago and the Chicago & Atlantic roads. The Calumet Electric Railroad, now almost completed, traverses the subdivision on 91st Street and Cottage Grove Avenue. These facilities, more than are offered by any other subdivision on this line of the Illinois Central Railroad leave nothing to be desired. It is embraced in the territory recently annexed to the City, and therefore has police and fire protection, the station being but two blocks south of the property. Summing it all up Dauphin Park possesses every advantage that can possibly be desired and people who wish to put their money into a home can find no more attractive property on the I. C. R. R. Schools, stores, churches now within 2, 3 and 4 blocks. It is confidentially predicted that Dauphin Park will have a population of 10,000 people within five years.

DAUPHIN PARK

Comprises in all about 400 acres, lying between 87th and 93rd Streets on the north and south, and Indiana Avenue and the I. C. R. R. on the east and west.

The above map shows that portion of the property now subdivided into lots. Blocks 1 to 26 inclusive contain the first lots placed on the market and are entirely sold out. Blocks 27 to 42 inclusive are now in the market and embrace the more choice lots of the subdivision.

IMPROVEMENTS MADE AND TO BE MADE.

1. Water pipes now in on Cottage Grove Avenue and several other streets.
2. Sidewalks on all streets.
3. Handsome shade trees in front of each lot.
4. All streets finely graded.
5. An elegant \$4,000 depot on the property.
6. A beautiful Arcade Building, with stores and hall, is proposed.

ADVANTAGES.

1. Only thirty minutes ride to the centre of the city. Trains every ten minutes, morning and evening.
2. Fifty-nine trains daily on the Illinois Central R. R.
3. All lots convenient to depot. No long walks.
4. Land high, dry and healthful.
5. A beautiful park along the Illinois Central R. R. adds greatly to the beauty of the place. This is the only suburb on the Illinois Central having its own park front.
6. The building lines established secure uniform lawns in front of houses.
7. The building limits made insure first-class improvements.
8. No stores or business houses permitted on exclusively residence streets.

TERMS.

DESCRIPTION

— OF —

✻ CALUMET HEIGHTS ✻

Calumet Heights embraces the 150 acres of high table land between 91st St. on the north, 95th St. on the south, Juniata Ave. on the east and Jeffrey Ave. on the west, about $\frac{1}{2}$ mile west of South Chicago and $10\frac{1}{2}$ miles southeast of the Court House and City Hall. From the business center of the city it is reached by the Illinois Central, the P. F. W. & C., the L. S. & M. S. Railroads and is directly connected with the large manufacturing industries of the Calumet region by the Calumet Electric Railroad which runs through the property on 93rd St. The P. F. W. & C. R. R. proposes to erect a suburban depot three blocks from the property at an early date.

The property is exceptionally well favored in its location, Jeffrey Ave. being a $\frac{1}{2}$ section line, Juniata Ave. a section line, Gross Ave. a $\frac{1}{4}$ section line and 95th St. being the greatest street in Chicago, extending nearly in a direct line either as a street or prominent country road across the State of Illinois, a distance of about 150 miles.

In topography Calumet Heights is the Kenwood of South Chicago, being covered with a beautiful growth of grand old oak trees.

It is the most picturesque residence district in all the Calumet region.

Standing at any of the intersecting streets of the subdivision, you are presented with a panoramic view strikingly beautiful. To the north and in plain sight will be erected the World's Fair buildings, with their towers and cupolas, to the east and south, rearing their giant smoke stacks against the distant horizon, are the mammoth manufacturing industries of South Chicago Cummings, Whiting, Ind., Colehour, Hegewisch and Irondale. Southward, and a little farther west, in plain view, nestles world famous Pullman on the bank of the Calumet Lake, whose placid, silvery surface adds much to the beauty of the view. Westward are the great Nickel Plate R. R. Shops, beyond which is seen Dauphin Park, now rapidly building up, with a fine class of residences.

It is little that nature has left for the hand of man to do in increasing the beauty of this favored spot, but what can be done has been or is being rapidly pushed to completion. Streets graded, sidewalks and crossings laid, trees felled here, transplanted there and all small underbrush cut out.

Calumet Heights is certainly a most desirable residence district, inasmuch as it is from 15 to 35 feet above surrounding property; it is covered with natural growth timber and is far enough from all factories and shops that no inconvenience will ever be experienced from dust, smoke and the ceaseless noise of the industries of this great manufacturing district. It will be the residence district of the elite of South Chicago, who will naturally desire the very best property to be had, and Calumet Heights has no equal. The limited amount of high land in this region makes it very valuable, and at the prices asked there is not a single lot in the subdivision that is not a genuine bargain either to a homeseeker or an investor.

That South Chicago is destined to be one of, if not the greatest manufacturing districts in the world is not doubted by those informed as to her wonderful resources and the success achieved in the past few years. That Calumet Heights contains the very best residence property in the district is well known, and that it will contain the very best residences in the district is conceded by all people familiar with its location and advantages. The territory of South Chicago contains about 5,000 acres of land lying on both sides of the Calumet River. The population, including Colehour and Cummings, is now estimated to

be between 40,000 and 50,000. The people are an industrious and thrifty class. In 1870 the settlement here comprised but a few shanties and dwellings occupied only by fishermen, hunters and trappers. There were no roads, no improvements, no bridges, no railroad stations or offices, no churches or schools. Since that time the U. S. Government recognizing the possibility and advantages offered by the Calumet for fine harbor, have expended over \$250,000 in widening the channel entrance to 300 feet and deepening it enough to allow free entrance to the largest lake craft, converting it into the best, most capacious and most accessible harbor on the great chain of lakes, with no less than 40 miles of river frontage. Public spirit and private enterprise have kept even pace, and a splendid city is the result. Seven large public school buildings, twenty-two self-supporting churches of all denominations. Ample police and fire protection, the principal streets of the town handsomely improved and sewered. The water supply is drawn from the City Water Works, and Electric Lights and Gas are supplied by local companies.

The railway facilities of South Chicago are unsurpassed, the Belt Line System in addition to the trunk lines furnishing every facility desired in railroad transportation by manufacturers or shippers, every railroad in Chicago having direct connection.

A quarter of a century ago any man would have been thought insane who would have said that Chicago with her scant 120,000 population would exceed 1,200,000 in 1891.

Yet the prospect then was much more adverse to the accomplishment of the result than are the present prospects for the speedy development of South Chicago and the Calumet region into the great industrial annex of the Imperial City—Chicago.

It is to Chicago what Sheffield, Birmingham and Manchester are to England, employing a wealth and power capable of propelling the commerce of the seas or driving the manufactures of a continent.

There are many tangible reasons for saying that no quarter of Chicago has made such rapid, substantial progress in the past few years as has the Calumet region. Factory after factory, industry after industry, both large and small, have located here bringing a heavy increase in the population. During the next year many more will commence operation within South Chicago borders, adding thousands to her people.

It means much when an extensive manufactory shuts up its establishment in another city and comes to South Chicago. When a prosperous manufacturer, with works in any city and branches all over the country, decides to increase his facilities and locates a new plant in South Chicago, instead of increasing the capacity of his present works, it means simply that South Chicago offers better facilities, better opportunities for money making and the conduct of a successful business.

As straws show the direction of the wind, these factories coming to this point indicate the great future prosperity of the district and warrant to the real estate investor a promising field for profit. Manufactories have come, are coming and hundreds more will steadily follow. Hence real estate values will increase steadily, rapidly and surely, not alone manufacturing sites, but business and residence sites as well and in corresponding proportion. Proprietors and managers and the highest paid employees will desire the best residence property to be had. They will be in a position as far as money is concerned to secure that which they desire, and Calumet Heights offering it there is no power that can prevent its being as above said, the Elite Residence District of the greatest Manufacturing and Industrial Centre of the world.

THE ONLY NORTH SIDE LOTS IN CHICAGO AT THE PRICE HAVING CITY SEWERS, CITY WATER, TWO LINES OF STREET CARS, CONNECTING WITH CABLE CARS, **FARE FIVE CENTS**, ALSO STEAM CARS 18 MINUTES RIDE FROM WELLS ST. DEPOT.

Location and Description.

THIS subdivision is bounded by Robey Street on the East, Western Avenue on the West, Cornelia Street on the North, and School Street on the South, far inside the city limits and only 4 miles from the Court House. The Roscoe Boulevard extension of the Lincoln Avenue Street Cars run through the centre of the subdivision on Roscoe Boulevard, connecting with the cable cars at Wrightwood Avenue—Fare all the way down town only Five Cents.

Over 300 lots sold and many houses now built. Frame houses can be built if desired. I have sold over 1,500 lots in this and adjoining subdivisions in the past few years.

Just east of my present Gross Park subdivision is the first property subdivided by me at Gross Park 6 years ago. It was at that time a cabbage field, one mile north of the city limits, and more than a mile from the nearest street car line. To-day it is far inside the limits enjoying the finest advantages, privileges, accommodations and is almost solidly built up with fine, substantial stores, residences, churches, schools, etc.

To illustrate the rapid increase in values here owing to the improvements made by me and my purchasers, the real estate records will suffice, showing residence lots sold by me at \$450 and \$500 as being now worth \$1,000. Business lots sold by me for \$600 now worth \$2,000. The addition now in the market offers property equally as good for proportionate increases. All lots are convenient to street cars, steam cars, have fine improvements made by me, also city improvements and advantages, and are very desirable as home sites.

TERMS ON LOTS.

Price, \$600 and upward. One-tenth cash, balance in small monthly payments, long time. No cash payment required if you build at once. Money loaned for building or houses built to order.

HUMBOLDT PARK SUBDIVISIONS.

City Lots Only \$550^{AND} Upwards

In my Sixth and Seventh Humboldt Park Subdivisions.

IN the last six years I have sold in my various subdivisions adjoining this Park over 1,500 lots on which I and my customers have built over 900 houses. A stronger argument in favor of a piece of property either for homes or for investment will be hard to find.

On the Boulevards surrounding and fronting one of Chicago's handsomest and most popular parks, this property offers excellent advantages and the best city and private improvements.

My Sixth and Seventh Humboldt Park Subdivisions

recently placed on the market lie between Division Street, Homan, North and Kedzie Avenues. Only four and a half miles from the centre of the city, conveniently accessible by two lines of street cars, the Division St. line and the North Ave. line. The Villa Ridge depot of the Chicago, Milwaukee & St. Paul R. R. is located only two blocks from the property. Sidewalks and shade trees are in front of all lots, streets are graded, and city water will be put in without any additional cost to purchasers of lots. Contracts have been let for the building of more than 300 houses in these and adjoining subdivisions before January 1, 1891. Residents here have every city improvement and convenience, yet at the same time enjoy all the pleasures of a country home owing to the proximity of lots to the park, furnishing the finest of pleasure and play grounds for all members of the family and forever guaranteeing pure air and good health. The low prices placed on these lots make them the cheapest that are for sale in this vicinity.

This Addition is located at the corners of Belmont and Elston Aves., just north of my Northwest Addition. Five miles from the Court House. The same facilities for reaching the business portion of the city are offered here as at the Northwest Addition, the Avondale Depot of the C. & N. W. R. R. being located on this property as shown by plat. All lots are therefore convenient to the depot, and residents are but 19 minutes ride from the Wells St. Depot. As proof that this property is appreciated by homeseekers will say that over 700 lots were sold in this and adjoining subdivisions the first 3 months the property was on the market, and to-day is well and substantially built up. So rapidly did purchasers build, so well were the lots improved by them and by me that lots sold there by me for \$200 and \$300 are now worth \$400 and \$500. The improvements made by me embrace sidewalks and shade trees in front of all lots, streets graded and a fine, deep artesian well supplying an abundance of water. Lot purchasers have erected many houses and stores which are now occupied by them. Schools, churches, stores and all city conveniences are now enjoyed by purchasers.

Belmont Ave., one of the main streets of the subdivision, is rapidly becoming the principal northwestern thoroughfare, travel being directed to it from Milwaukee Ave. on account of the Old Snell Toll Road. A Street car line is to be extended soon on Belmont Ave. from Clybourn Ave. Cable, past the property, and this street will also be paved at an early date.

THIS PRINCE OF SUBDIVISIONS

Located as it is in a portion of the city in which over 1,000 houses have been built within the past two years, offers exceptionally attractive features to either home-seekers or investors. The facilities for reaching the business portion of the city are excellent. The Avondale depot of the C. & N.-W. is but two minutes walk from the subdivision. Many trains daily, run to the city in less than twenty minutes; low fare. The proposed Milwaukee Avenue Elevated road will pass within a few blocks. Street Cars will soon be extended from the Clybourn Avenue Cable to pass this property on Belmont Ave.

The subdivision has been handsomely improved by me, sidewalks and cross-ings laid on all streets, shade trees planted in front of all lots and the streets all graded. Purchasers have already commenced building in the Addition and many fine houses will be completed soon. Public schools, churches, stores all convenient, and as it is inside the city now has police and fire protection. Other city improvements will follow soon. Belmont Avenue, one of the principal streets of the subdivision is to be paved at once, which will make it one of the principal streets of the north-west side, since travel has been diverted to it from Milwaukee Avenue and the old Snell Toll Road. With all these and many other advantages I claim these lots to be desirable at, and on my

"ONE OF THE FINEST"

Subdivisions ever platted on the Wisconsin Central Line.

LOCATION AND DESCRIPTION.

Oak Park is just west of the new Grant Locomotive Works, and just north of and adjoining the new Northern Pacific and Wisconsin Central Yards and Shops, and is located on the crest of a ridge which begins to rise at Austin, and where this ridge reaches its greatest elevation (65 feet above Chicago) is situated my OAK PARK ADDITION, between 12th and 14th Sts. on the north and south and Clarence and Prairie Aves. on the east and west, and skirted by heavy timber on the west and south.

This subdivision is convenient to Kirwin Station, eight miles from the Harrison St. Depot of the Wisconsin Central railroad, and also on the line of the proposed Oak Park Electric Motor Railroad.

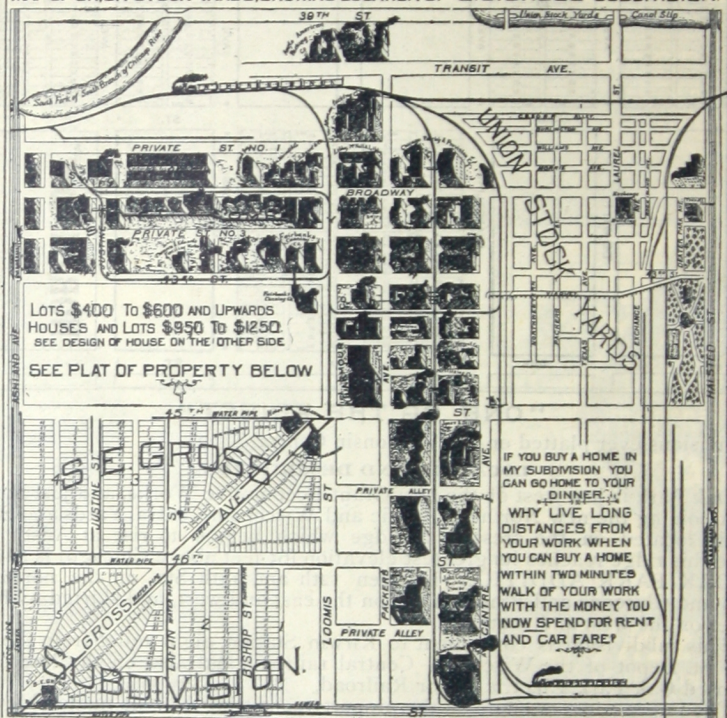

The improvements made on the property consisting of well made sidewalks on all streets, handsome shade trees in front of all lots, streets graded and large main sewer in Oak Park Ave. and its proximity to the thriving City of Oak Park where all city conveniences, such as schools, churches, stores, street cars, newspapers, and the best of society are enjoyed, will, beyond doubt, make of these subdivisions one of the handsomest and best locations for a residence on the line of this railroad, now so popular on account of its excellent suburban service. The prices on lots are very low when location, accommodations, improvements and terms are taken into consideration. See the property and its advantages and be convinced.

Double Front Residence and Business Lots.

LOCATION.

These lots front on Monroe St. and Colorado Ave., one-half block west of Albany Ave. and four blocks east of Garfield Park.

DESCRIPTION.

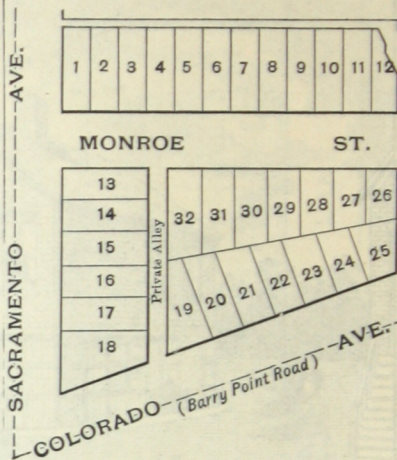

These lots are located in one of the best residence neighborhoods on the West Side, and are very desirable as a location for a home and an investment. Monroe St. is 80 feet wide, and extends west to Garfield Park, and is a very popular residence street, many handsome residences being built in the vicinity of these lots. Colorado Ave. is one of Chicago's famous diagonal streets, and is fast coming into prominence as a business street. The street is paved, and it is proposed to extend the street cars west to the boulevard.

FIRST STORY.

SECOND STORY.

I PUBLISH HEREWITH A FEW OF THE MANY LETTERS RECEIVED FROM PURCHASERS.

S. E. GROSS:

Dear Sir—The best investment that I ever made was the purchase of one of your houses. Yours, JACOB H. LAYER.
423 Gross Parkway.

MR. S. E. GROSS:

Dear Sir—I am perfectly satisfied with the treatment I have received in dealing with you. Your treatment of me has been fair and gentlemanly. I also find that your cottages are comfortable, and offer a nice and cheap home for a workingman. Yours,

ANTON LIMBACK, Steel Engraver,
with Western Bank Note Co.

MR. S. E. GROSS:

Dear Sir—I have owned and occupied one of the cottages built by you on Albany Ave., near Madison St., about eighteen months, and am well pleased with it. Your plan of furnishing houses for worthy people is a grand success. Your kind and generous treatment of all who buy houses of you is a source of pleasure to us all. Yours truly,

CHAS. HOTCHKISS,
with Willoughby, Hill & Co.

MR. S. E. GROSS:

Dear Sir—I take great pleasure in certifying that the cottage, 421 Gross Parkway, which I bought from you in June last year has given entire satisfaction. The house is well built, is warm and comfortable. I have not found it hard to meet the monthly payments, and I am well satisfied with the treatment I have received at your hands. My family and I have been happy since buying our own home, and advise others to get a home of their own, and am sure they will be satisfied if they buy of you. Yours, etc.,

WM. CLAIR.

MR. S. E. GROSS:

Dear Sir—Having recently bought a lot in Gross Park, which in every respect proves to be as represented, I take this means of recommending to those contemplating to invest in real estate or a home, the firm of S. E. Gross, as a fair dealing firm, fully prepared to substantiate any and all claims which they may make regarding their property. In my estimation, the location of the land is in every respect very desirable, and has ample means of rapid transit to the business centre.

Yours respectfully,
ANTHONY N. BROOKS.

MR. S. E. GROSS:

Dear Sir—We bought of you in October last a two-story brick (No. 1323 West Monroe St.) We are very much pleased with our home, and the very liberal terms of payment that enable those with moderate means to safely buy and pay for a home. Very truly yours,

DEWITT C. BUTTS, 1323 Monroe St.

MR. S. E. GROSS:

Dear Sir—It is with pleasure that I inform you that the place I bought of you last year has more than come up to my expectations; the house, as well as the location. I can therefore, cheerfully recommend you in regard to fair and square dealing.

Yours, etc.,

M. DRYFUSS, Chicago Post Office.

MR. S. E. GROSS:

Dear Sir—I am perfectly satisfied with the cottage I purchased from you two years ago. I consider I have that much saved. It is better than a bank for a poor man.

Respectfully,

D. H. BROOKINGS, 389 Gross Parkway.

MR. S. E. GROSS:

Dear Sir—I am well satisfied with the house I purchased from you last June, on your liberal terms, and would say to those who desire to secure for themselves a home, to call on you, as I am fully satisfied you will do the square thing by any one who has any dealings with you. Hoping you may be as successful in the future as in the past, in providing homes for the people, I am, Sir, Yours, etc.,

P. J. O'CONNOR,
419 Gross Parkway.

MR. S. E. GROSS:

Dear Sir—I have bought three lots in your new subdivision at Humboldt Park and Division St., and shall always be obliged to you for enabling me, by your convenient terms, to get these lots. I can now realize a handsome profit on same, and consider the location the best on the West Side. I beg you to accept my thanks for the straight and square treatment I have received by your firm, which I consider the most reliable real estate firm in the city.

Yours respectfully,

JAMES KEARNS,
Police Officer at West North Ave. Station.

South-east corner Dearborn and Randolph Sts.

MR. S. E. GROSS:

Dear Sir—We were the first to buy and occupy one of your Albany Avenue Cottages. We are pleased with our home; like the neighborhood on account of its healthfulness, convenience to cars, schools and churches, and good neighbors. *Our property has increased in value at least 15 per cent. since we purchased it.*

Yours respectfully,

LIZZIE ROOT, 119 Albany Ave.

MR. S. E. GROSS:

Dear Sir—A year ago I bought one of your Gross Terrace Cottages and have lived in it since, and am well satisfied with your way of doing business. I think it a great opportunity for people of moderate means to secure a good home. The way my cottage was built and finished has proved in every particular most satisfactory to me.

Your friend,

M. W. GLEASON,
13 Gross Terrace.

MR. S. E. GROSS:

Dear Sir—It gives me pleasure to recommend to all health seekers, and to those desirous of owning their own homes, the houses and cottages erected by you in the vicinity of Garfield Park. I bought one of you over a year ago, and have lived in it ever since, and *am more than satisfied with my selection.*

Yours respectfully,

CHAS. T. HEISER,
Manager for B. T. Babbitt.

MR. S. E. GROSS:

Dear Sir—I am the first settler on Gross Parkway, and have always been satisfied with the bargain and the treatment I received from you.

Yours respectfully,

CHAS. J. NELSON,
363 Gross Parkway.

MR. S. E. GROSS:

Dear Sir—I consider the investment I made on the two lots on Richmond street, near Humboldt Park, a good investment, and believe the property will increase in value.

Yours truly,

A. W. PENDLETON,
Lieut. Fire Department.

MR. S. E. GROSS:

Dear Sir—A number of my friends, with myself, have invested several thousand dollars in lots at Gross Park, one of your subdivisions, believing this property, from its rapid development, and easy and rapid accessibility to city, will soon claim the attention it merits from those wishing or seeking suburban homes.

Respectfully yours,

GEO. W. HEATH,
Principal Ogden School.

E. C. Groß:

Auf Ihre geehrte Anfrage, wie es mir in Groß-Park gefällt, die ergebene Erwiderung, daß der Platz alle meine Erwartungen weit übertroffen hat. Die Verbindung nach der Stadt, sowohl durch Streetcars als auch Eisenbahn, ist ausgezeichnet, und der Gesundheitszustand von Groß-Park vorzüglich. Ich wohne jetzt seit 6 Monaten hier, und hat die reine und gesunde Luft, die wir hier haben, meine Frau und Kind, welche in der Stadt stets gekränkelt haben, vollständig hergestellt. Indem ich Ihnen für Ihren gütigen Rathschlag, mich in Groß-Park anzulassen, bestens danke, empfehle ich mich Ihnen. Hochachtungsvoll,

E. C. Neumann.

MR. SAMUEL E. GROSS:

Jag är mycket väl belåten med det hus jag köpt af eder, samt vill uttrycka min tacksamhets erkännsla för all den välvilja och ärlighet ni bevisat emot mig.

Med högaktning,
ANDREW ENGLUND.
